HAPPY NEW YEAR!!
January meeting
Tuesday, January 3, 2017
7:30 pm

Burton W. Chace County Park
13650 Mindanao Way, Marina del Rey

PROGRAM

Succulent Garden Projects both Public and Private
Ernesto Sandoval

PLANT OF THE MONTH

CACTUS:
Grafted cacti

SUCCULENT:
Caudiciform succulents

Ernesto Sandoval will take us on a tour of several garden projects he's been a part of over the years at UC Davis, his own garden and other private projects. He'll discuss some of the common connections to a successful garden project such as soils, amendments, as well as selection and placement of plants. Besides inspirational photos and an approachable presentation style, Ernesto will bring an assortment of uncommon and rare succulents and others for our gardens and/or potted plant collections!

Ernesto has been wondering and seeking questions to why plants grow and look the way that they do from a very early age. Now he explains and interprets the world of plants to a people of a variety of ages and experiences from K-12 to professionals and Master Gardeners. He regularly lectures to a variety of western Garden Clubs throughout the year and particularly to Succulent Clubs throughout California and adjoining states. Succulents and desert plants are his particular passion within his general passion for plants. He describes himself as a "José of All Plants, Master of None." Ernesto thoroughly enjoys helping others, and gardeners in particular, to understand why and how plants do what they do.

He was doing roadside identification from a very young age and when he was about 13 he asked his dad why one tree was pruned a particular way and another tree another way. His dad answered bluntly "because that's the way you do it." Since then he's been learning and teaching himself the answers to those and many other questions about the biology of plants by

getting a degree at UC Davis in Botany. Because of his interest, he worked his way from student weeder/waterer to Director over the last 25 years at the UC Davis Botanical Conservatory. He's long left the "mow blow and go" landscape gardening world and has immersed himself in the world of polyculture and biodiversity by growing several thousand types of plants at the UC Davis Botanical Conservatory, many of them succulents. Several of his favorite garden projects involved converting lawns and or water loving landscapes to drought tolerant and diversity filled gardens! He likes to promote plant liberation by encouraging gardeners of all sorts to grow more plants in the ground when possible. He loves the technical language of Botany but prefers to relate information in more understandable methods of communication! By helping people to understand the workings of plants he hopes to help us better understand how to and why our plants do what they do and how we can maximize their growth with less effort. A friend once described his lecture style as "Edutainment" and he works to make science fun and engaging.

** If your last name begins with **F - K** please bring in goodies for the refreshment table.

2017 Plant of the Month

MONTH

January
February
March
April
May
June
September
October
November

CACTUS

Grafted cacti
Columnar
Mammalaria (hooked spine)
Astrophytum, Ariocarpus
Parodia, Notocactus
Gymnocalycium
Ferocactus, Echinocactus
Opuntioids, Pereskia
Epiphytic cacti

SUCCULENT

Caudiciform succulents
Succulent as bonsai
Aloe hybrids
Kalanchoe, Graptopetalum
Euphorbia – African continent
Succulent crests
Adenium, Pachypodium
Agave, Calibanus, Nolina, Yucca
Deuterocohnia, Dyckia, Puya

Sinningia leucotrica

Cotyledon sinus alexandri

Adenium obesum

Euphorbia francoisii

We mourn the loss of James “Jimmie” Nettles who left us two months ago. We will long remember his friendly banter, constant smile and good humor. Sunset members send thoughts of peace and encouragement to Coni and hope to see her again soon.

We also mourn the loss of longtime member Bill Campbell who graced countless meetings, shows and field trips with his desire to learn, his optimistic nature and his spark of bright light. We send our condolences to Judy and the family. Judy sent in the Los Angeles Times obituary on Bill:

Bill Campbell, intellectual mensch, much adored by his many loved ones died peacefully in Santa Monica on Thanksgiving Day. Bill brought laughter, wordplay and light to everyone he touched. After 2 years in the U.S. Army during World War II, he started his librarian career with degrees from UCLA and Berkeley. He eventually retired as Manager of the Technical Document Center at Hughes Aircraft Co. where he worked for 26 years. His many talents included folk and Scottish Country Dancing, serving as a Getty Docent for 15 years, a love for and extensive knowledge of American and English history, Spanish fluency and becoming a horticulturist with his wife Judy. Bill was delightful, kind, proud yet of humble warmth and strength.

Pterodiscus sp.

Ipomea platense

Membership Renewal

Sunset Succulent Society Membership Form 2017

Name: _____

Additional Member(s): _____

Address: _____
